

Are you **building** or **refurbishing** a house in 2015?

Would you like it to be super energy efficient, healthy and comfortable?

Would you like to know more?

Where? **The Clarion Hotel, Co. Sligo**

When? **Thursday 26th February @ 7.30 pm**

The ProAir team will take you through the process, step by step, of future-proofing your building project against the ravages of future oil prices and climate change issues. We will create clarity on the regulatory issues which exist around low-energy construction today. A highly efficient and effective ventilation system is an essential component and the talk will demonstrate how this dovetails neatly with the other low-energy components essential to the mix. ProAir have assembled a panel of experts in the low-energy field, who will demonstrate how your construction project can be a painless and cost neutral exercise.

Our Experience is your Peace of Mind
