Sales Executive Required

Job Description: Energetic and ambitious person required to drive sales in an expanding company involved in providing low energy technology to the residential construction sector. The company manufactures Heat Recovery Ventilation units in Galway and its business model involves the provision of turn-key HRV solutions to a range of customers from self-builders to large developers. The candidate will be required to work with the marketing department to develop the company's sales strategy and systems. The primary objective is to increase the conversion rate of the lively inquiry level currently being experienced.

Location: Munster region

Skills Required: The chosen candidate will have some experience / qualifications in the construction industry. A business background will also be advantageous.

Salary: €25,000 per annum

Remuneration will be a combination of salary and performance based incentive and for the right candidate, will offer significant opportunity for career development.

Benefits: Transport will be provided.

Start Date: 08/06/2015
