Unit 1, Polkeen Industrial Estate
Castlegar, Tuam Road
Galway

ProAir Systems Manufacturing Operative

Company Profile

ProAir Systems is a manufacturer of high quality residential ventilation products based in Castlegar, Tuam Road, Galway. We also offer system design and installation services to a wide range of customers from self installers to property developers. ProAir has moved into growth mode in recent years and is now equipped to accelerate this growth. This is mainly due to (a) the level of maturity of its product offering and (b) increased demand for its products and services.

Job brief

ProAir Systems wish to add an individual to its team who will make a positive and worthwhile contribution to a small but growing company. The candidate will assist in the manufacture of the Heat Recovery Ventilation units. (S)he will also prepare components used in the installation of ducting systems. The candidate will help in the logistics of sending product to installers, agents and customers nationwide. S(he) will gain experience in Manufacturing processes and Logistics Supply chain processes.

Responsibilities
